HUSBANDS (PARTNERS) OF WOMEN WITH CANCER

When the woman you love is diagnosed with cancer, it can alter life creating a parallel **journey through cancer**. The expectations for husbands and partners are often significant and most men want to find the best ways to support their wives and partners.

Research indicates that men benefit from other men's experiences. This group for men who live with women diagnosed with cancer meets **every other Monday** evening.

Facilitated by Jeffrey Tirengel, PhD

When: Every other Monday
7:30 - 9:00 pm
